Project: Make a Mr Potato Head.

To continue our growing learning, we would like you and your child to make a Mr Potato Head.

You could make this using a pair of tights, a plant pot or any other recycled container.

I would like you to be a creative as you can. Think about who your head will resemble and how will you make it look like that character or person. You will need to start growing your cress or grass for the hair early to give it time to grow.

Who will your Potato Head resemble?

What features will your Potato Head need?

During the next term, 2S will be learning all about our Local Area (linking Science, Geography, Art, DT).

Science – Plants

History - Neil Armstrong

Geography - The geography of our school and the surrounding area

Art - Artist: Angie Lewin and Techniques: Drawing and Collage

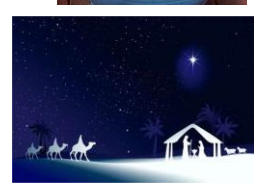

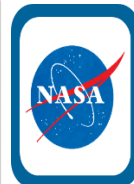

D & T - Design, make and evaluate a miniature garden

PSHCE & British Values - Rules, Rights and Responsibilities

RE - What is religion? And Religious Festivals

As our class will be continuing this theme for the whole term, I have listed a number of activities which can be done over the next term in order to engage your child even further.

This home learning is for the next 14 weeks. This is not compulsory but children are encouraged to complete the tasks (perhaps on a weekly basis) and bring the project back to school on the specified date.

Activity

How many of these activities can you complete before the end of the autumn term?

- 1) Make a home for insects or a small creature. You could draw what it looks like or take a photograph.
- 2) Hunt for insects. What did you find? Can you draw what you find or take a photograph?
- 3) Discover what is in a pond. You could draw a picture or make a collage.
- 4) Create a piece of art for an exhibition. Think about Angie Lewin and try to recreate her work for yourself.
- 5) Build a bridge and test its strength. Can you design, make and evaluate your work? It would be fantastic to see your photographs or maybe even a video.

Thank you for your continued support.
