## Home Learning – Autumn 2019

### Year 3 Project

#### Project: Make a model

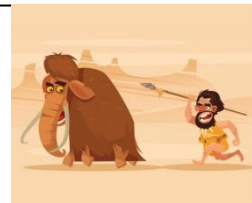

Make a model of a shelter that people lived in during the stone age. Think about the materials you will need and the shape it needs to be. Make one large model of a shelter or make a small village including other things such as a camp fire and a place to cook food.

This term, Year Three's topic is 'Stone Age'. We will be learning all about how people lived during this time. We have got lots of exciting learning opportunities through history, art, geography and literacy. Below are a list of activities the children could complete at home. They can record ideas or photographs in their homework book which they received before the summer, and models/art work are more than welcome any time.

This home learning is for the next 6 weeks. This is not compulsory but children are encouraged to complete the tasks and engage them further with their topic. The 'Project' is an opportunity for children to complete with help from their family and friends and build on work done in class.

Reading is an essential part of your child's development; in their reading records we have listed some ideas your child could do at home to engage them in reading. We will still send home levelled reading books so children can practise and develop their reading at home.

Please check your Marvellous Me is up to date and working as I will be sending messages to keep you updated on the children's learning.

Activities	
<b>Activity 1</b>	Make a shelter in the woods with your family. Use sticks and other materials you can find laying around to build it.
<b>Activity 2</b>	Make a stone age necklace or any other jewellery you fancy!
<b>Activity 3</b>	Make up a story and tell it through your cave painting.
<b>Activity 4</b>	Imagine you live in a cave, write a paragraph describing what it is like.
<b>Activity 5</b>	Find pictures of animals, tools, shelters or anything else related to the stone age and present them on a poster with a short sentence explaining each thing.
<b>Activity 6</b>	Research the woolly mammoth and present facts on a poster. Make it as big and bright as you want on paper or even on the back of a cardboard box!

We look forward to seeing your amazing project pieces!

Miss Arkless & Mrs Smuk
