

We look forward to seeing your amazing project pieces!

Miss Arkless & Mrs Smuk

Year 3 Project

Project: Make a model

This term, Year Three's topic is 'Bridging Great Britain'. We will become engineers and we will learn all about different types of bridges, famous engineers as well as designing and making our own bridges.

We have got lots of exciting learning opportunities through history, art, geography and literacy. Below are a list of activities the children could complete at home. They can record ideas or photographs in their homework book which they received before the summer, and models/art work are more than welcome any time.

This home learning is for the next term. This is not compulsory but children are encouraged to complete the tasks and engage them further with their topic. The 'Project' is an opportunity for children to complete with help from their family and friends and build on work done in class.

Reading is an essential part of your child's development; in their reading records we have listed some ideas your child could do at

Activities

Activity 1	Draw, paint, collage a picture of a bridge. Use different colours to make it stand out or keep it simple and use natural colours.
Activity 2	Visit the Transporter bridge and cross the River Tees.
Activity 3	When you are out and about, look out for bridges. Did you cross them by foot, car, train? Take photos to show us the different ones you saw.
Activity 4	Write your own story about a troll that lives under a bridge.
Activity 5	Make a junk model of a suspension bridge https://leftbraincraftbrain.com/engineering-201-diy-recycled-suspension-bridge/ use the link for ideas
Activity 6	Show your family the paper cup activity and explain to them how your weight can be distributed. All you need are paper cups and a piece of cardboard.
