

EYFS Spring  
Term 2020

## Project ideas

To continue our learning, we would like you and your child to make a model of an animal you might find on the farm.

You could use recyclable materials or how about using fruit or vegetables to make an animal.

Have Fun!

Hand in date: 3.04.20

# Dormanstown Primary Academy Home Learning

During this Spring Term, our learning has been around traditional tales and will now be based on our topic:

## 'Do Cows Drink Milk?'

We will be learning about life on a farm and identifying different farm animals. We will also be learning about the life cycle of a butterfly, chick and frog.

This home learning is for the next 5 weeks. This is not compulsory but children are encouraged to complete the tasks and bring the project back to school on the specified date.

The 'Project' is an opportunity for children to complete with help from their family and friends and build on work done in class each week.

**Projects will be on display in our academy, where everyone who visits can view the talent we have here at Dormanstown!**

### Activity

**How many of these activities can you complete before the Easter holidays?**

**Art ideas** – make a spring collage using natural objects and leaves found outside.

**Baking ideas** – bake some biscuits and decorate with animal faces on them! Take a photo.

**Community idea** – Look around for any signs of spring happening in gardens and woodland areas. Take a photo.

Thank you for your continued support.

Mrs McFarlane and Miss Burton
