

EYFS Autumn
Term 2 2019

Project ideas

To continue our learning, we would like you and your child to make a model of a creature you might see in the woods.

You could make a hedgehog or a squirrel. You could use recyclable materials or how about using fruit or vegetables.

Have Fun!

Hand in date: 13.12.19

Dormanstown Primary Academy Home Learning

During the Autumn Term, our learning will be based on our topic:
'Why do squirrels eat nuts?'

We will be learning about changes that happen in autumn. We will also be reading the traditional story *The Little Red Hen* and stories based on Percy the Park Keeper.

This home learning is for the next 6 weeks. This is not compulsory but children are encouraged to complete the tasks (perhaps on a weekly basis) and bring the project back to school on the specified date.

The 'Project' is an opportunity for children to complete with help from their family and friends and build on work done in class each week.

Projects will be on display in the entrance to the academy, where everyone who visits can view the talent we have here at Dormanstown!

Activity

How many of these activities can you complete before the Christmas holidays?

Art ideas – make an autumn collage using natural objects and leaves found outside.

Baking ideas – bake a cake or a loaf of bread and make a list of the ingredients that you used. Take a photo.

Community idea – Visit a woodland area to look at autumnal changes in the environment.

Thank you for your continued support.

Mrs McFarlane and Miss Burton
